New release of Kiuwan Engine and Local Agent

Improvements in Kiuwan Engine (master.p459.q7195.a1719)

New Kiuwan engine contains enhanced versions of parsers and rules:

- Enhancements in *parsers*: C#, Java, PL-SQL, JSP and VB.Net
- Bug fixing, performance and reliability issues in C#, JSP and Java *rules*

Local Analyzer (master.994.p459.q7195) New Return Codes

ⓘ   Kiuwan Local Analyzer provides **new and more detailed return codes, deprecating existing return code 20**.

If you are using Kiuwan in a *Continuous Integration* environment or you have built your own *integration scripts*, please visit Local Analyzer ReturnCodes for a full description of changes.
