### Problem

#### Java returned: 1

This is an unexpected error that prevents the execution of Kiuwan Local Analyzer. After producing this error, Kiuwan halts the execution.

Errors belonging to this category open automatically a support ticket so Kiuwan Technical Support can investigate the problem.

If you contact Technical Support, please provide the ticket id that appears in the error message.

## Solution

The most common reasons for this problem are:

- Not enough Memory to start Kiuwan analyzers. Please visit Not enough Memory to solve this problem
- Out of Memory when running the analysis. Please visit Out of Memory to solve this problem
