

What are the requirements to use the Kiuwan Applications?

Kiuwan Code Security and **Kiuwan Insights** are cloud-based solutions, so to use the applications you only need Internet access to <https://www.kiuwan.com> and <https://kiuwan.zendesk.com>.

If you want to use the **Kiuwan Local Analyzer** you also need [Java Runtime Environment](#) installed on your computer. Read more about the requirements here: [Installation Requirements for Kiuwan Local Analyzer](#)
