Scanning your code

- Can I run multiple scans at the same time?
- Can I scan my source code without uploading it to the cloud?
- Does Kiuwan store my application's uploaded source code?
- Do I have to scan the complete source code or can I just scan parts of it?
- How do I download the Kiuwan Local Analyzer?
- How long does a scan take to complete?
- Which are the main indicators provided by Kiuwan Code Security?
