

Is Kiuwan in the Gartner Magic Quadrant?

The Gartner Magic Quadrant selects companies [based on various criteria](#), including "*market share, number of clients, installed base, types of products/services, target market.*" This formula favors companies with very high revenue.

Kiuwan is currently a modest income company, and our revenue does not meet the target for inclusion in the current Gartner Magic Quadrant. However, we are growing rapidly and anticipate that this will change in the near future.
