

# Change password

Account owners can set a new password for their own login (unlike users, who can only request a new password from the account owner).

Go to **Account Management > Change Password** to change the password.

The screenshot shows the 'CHANGE PASSWORD' page in the Kiuwan account management interface. The top navigation bar includes links for PROFILE, CHANGE PASSWORD, ORGANIZATION, SECRET KEYS, ENGINE, SUBSCRIPTION, and PASSWORD POLICIES. The main content area contains three input fields for 'Current Password', 'New Password', and 'Repeat New Password'. To the right, there are two informational boxes: 'Password policy' (Minimum length: 8, Number of digits: 2) and 'Allowed characters' (Digits: '0123456789'). A 'Save' button is located below the input fields. The footer includes copyright information for 2020 Kiuwan and links to Connecting Conditions, Security Policy, Terms of Use, Privacy Policy, and Documentation. A 'Help' button is in the bottom right corner.
